

*Keep on loving one another as brothers and sisters. Do not forget to show hospitality to strangers for by so doing some people have shown hospitality to angels without knowing it.* Hebrews 13:1-2

## meet our neighbors

by Ka'thy Gore Chappell, CBFNC Leadership Development Coordinator

Pathways for Life, Inc., is a 501(c)(3) non-profit organization who, just like CBFNC, leases office space at 8025 North Point Boulevard in Winston-Salem. Started in 2010, Pathways for Life relocated their offices down the hall from the CBFNC offices two years ago. It has been a pleasure to get to know these neighbors and discover opportunities to develop friendships, tell our stories, and share resources. CBFNC often shares our space with them when they need extra meeting capacity.

Pathways for Life is operated by the staff and an executive team of volunteers who seek to achieve specific goals in each of the following three areas:

### ■ Pathways for Life

To train ministers and laity in personal development, Christian leadership, communication, and time management;

### ■ Business Development Consultants Group

To develop professional expertise in business administration, bookkeeping, fundraising, grant writing, and strategic planning;

### ■ Project "UP!"

To empower homeless women and children as well as women in crisis to become self-sufficient.

Through educational modules, Pathways for Life meets training needs for churches and other Christian organizations as well as small businesses, women's shelters, prisons, and women's groups. For more information, visit [www.PathwaysForLifeWS.com](http://www.PathwaysForLifeWS.com).

**Join CBFNC in getting to know our neighbors!**

Dr. Francene Hash, left, is pictured receiving the 2016 Lifetime Achievement Award given by *The Winston-Salem Chronicle*. Her friend and colleague, Chandra Stewart, stands with her. Dr. Fran, CEO and Founder of Pathways for Life, is also an author, trainer, and conference speaker. She is joined in leadership by Chandra Stewart, COO of Pathways for Life.
