1. Half the Sky by Nicholas D. Kristof and Sheryl WuDunn. In 2009, with the acclaimed bestselling book, *Half the Sky: Turning Oppression into Opportunity for Women Worldwide* (already in its 24th printing in hardback alone), Pulitzer-Prize award-winning journalists Nicholas Kristof and Sheryl WuDunn took on the fight against the oppression of women and girls worldwide and encouraged readers all over the world to join the burgeoning movement for change. 3. Nickel and Dime: On (Not) Getting By in America by Barbara Ehrenreich. Millions of Americans work for poverty-level wages, and one day Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform which promised that any job equals a better life. But how can anyone survive, let alone prosper, on \$6 to \$7 an hour? To find out, Ehrenreich moved from Florida to Maine to Minnesota, taking the cheapest lodgings available and accepting work as a waitress, hotel maid, house cleaner, nursing home aide, and Wal-Mart salesperson. She soon discovered that even the "lowliest" occupations require exhausting mental and physical efforts. And one job is not enough; you need at least two if you intend to live indoors. *Nickel and Dime* reveals low-wage America in all its tenacity, anxiety, and surprising generosity -- a land of big boxes, fast food, and a thousand desperate strategies for survival. Instantly acclaimed for its insight, humor, and passion, this book is changing the way America perceives its working poor. 4. When Helping Hurts: Alleviating Poverty Without Hurting the Poor...and Yourself by Brian Fikkert and Steve Corbett. *When Helping Hurts* combines sound theology, solid research, foundational principles, and proven strategies that prepare you for Christian transformational ministry among the poor, whether in

the local community or abroad. Churches and individual Christians often have faulty assumptions about the causes of poverty — assumptions that many times lead to ministry strategies that do considerable harm to poor people as well as to themselves. Pastors, deacon boards, mercy ministry teams, home and foreign missions committees, missionaries, and donors will all benefit from reading *When Helping Hurts*. It is also appropriate for an individual or for a group such as a Sunday school class, a ministry team, and a small group Bible study. 5. Will Jesus Buy Me a Double-Wide?: ('Cause I Need More Room for My Plasma TV) by Karen Spears Zacharias. Author Karen Spears Zacharias believes Christians have been paying good money for a false doctrine—the Cash and Cadillac Gospel. With humor and wit in *Will Jesus Buy Me a Double-Wide?*, Zacharias unpacks story after story of those who use the name of God as a means to living their own “good life,” as well as some unlikely folks whose genuine faith has led them to a different understanding of wealth. 6. What Every Church Member Should Know About Poverty by Bill Ehlig and Ruby Payne. Churches are often perceived as open, welcoming environments and many times that's true. But congregations, without even realizing it, sometimes make themselves inhospitable to people from poverty. For those situations, Dr. Ruby K. Payne and Rev. William Ehlig wrote what Every Church Member Should Know About Poverty. They use stories to help illustrate the way people from poverty view middle-class churches and how to change those perceptions. They also provide solutions and tactics to teach church members and leaders some of the special considerations that can be afforded the disadvantaged.
